**From Brand: Lippincott Williams and Wilkins : Fields Virology (2-Volume Set)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Fields Virology (2-Volume Set):

1 of 1 people found the following review helpful. The description said 2 volume set. Never got the ...By Kindle CustomerThe description said 2 volume set. Never got the other vol. WHERE IS IT?????????????????0 of 0 people found the following review helpful. low price.By Duke Kattgood . good product with high quality. i love the product, it is very well balanced, has lot of weight to it, and it is very sharp. it cuts through bread so easily and makes perfect slices. quality. I'll be buying again. my sister, low price.10 of 28 people found the following review helpful. Another Bible. Amazing viral worldBy A CustomerIt covers all fields of virology. Perfect and wonderful ! Easy to understand. I really recommend this book to who is involved in biology

Featuring over 30 new chapters that incorporate state-of-the-art molecular, genetic and medical concepts, this edition discusses each virus in sections, focusing on basic and general aspects, including pathology and pathogenesis, latency, epidemiology, host immune response, clinical manifestations, diagnosis, and prevention and control. The book is illustrated throughout with diagrams, tables and photomicrographs, as well as colour plates dealing primarily with the principles of virus structure.
