Got a different poster than what I orderedBy Brent ThielgesNot only did I purchase the laminated version with grommet and get the non-laminated, non-grommets version, but this poster was beat to hell upon arrival. Some of that can be attributed to carrier abuse, but we have gotten the same poster in the past from different vendors without any damage at all. It's so beat up, I doubt I could get any refund if I returned it.Very disappointed that I got 20" x 26" heavy paper (ISBN 9781587791383) when I ordered 20" x 26" heavy paper laminated with grommets at top corners (ISBN 9781587791376).0 of 0 people found the following review helpful.

Excellent Chart to explain Foot and Ankle Injuries to our ...By Lance Labno, PT, DPTDurable. Excellent Chart to explain Foot and Ankle Injuries to our patients!3 of 3 people found the following review helpful. Great ChartBy BreezeieAs I am a practicing reflexologist, I needed a chart that shows some foot pathologies plus foot construction. This chart is perfect. It looks great matted and framed on the wall in my session room and it is right next to my framed reflexology chart.
