Michael J. Gambello MD : Genetics Diagnosis, Inborn Errors of Metabolism and Newborn Screening: An Update, An Issue of Clinics in Perinatology, 1e (The Clinics: Internal Medicine) before purchasing it in order to

gauge whether or not it would be worth my time, and all praised Genetics Diagnosis, Inborn Errors of Metabolism and Newborn Screening: An Update, An Issue of Clinics in Perinatology, 1e (The Clinics: Internal Medicine):

Genetic testing and genome sequencing have opened up the possibility to clinicians and families to treat diseases, syndromes, and malformations earlier and provide therapeutic interventions. The guest editors seek to provide a basic overview of the topic for the neonatologist/perinatologist. Articles address dysmorphology, syndromes in the infant, skeletal dysplasias, limb malformations, craniofacial anomalies, GI/liver disease, disorders of sexual development, brain defects, inborn errors of metabolism, and congenital heart disease.
