however, as I've no time to do it justice, I'm just going to say that this is the author's theory of life, the universe and everything and, at about age 60, coming from a scientific background, much of it rings true to me as a coherent theory of humanity's fit in this supremely awesome universe we inhabit. It's a superb attempt at drawing together diverse evidence from the hard-edged sciences (eg: quantum theory, physics, astrophysics, NDE research) with the huge body of the most credible, consistent UFO information all woven into a cogent scenario that's both awe-inspiring and also gives cause for concern. I am now enjoying re-reading the book thanks NK for publishing such a stimulating and very well-thought-out treatise :-)

This book is a book I will reread and reread, it is so aligned with my feeling that the ET's are not so much ET but underdimensional and the source of the creation and fall from grace myths. With that in mind the author outlines their plots and subterfuges and that they definitely do not have humanity's best interest at heart, Forget about "space brothers" coming to help you. But learn the truth so you know what is happening.

Exposes the agenda behind the bio-robotic grey aliens genetic manipulation of certain human races Reveals the Greys nature as sophisticated self-aware machines created by a long vanished extraterrestrial civilization Explains how their quest to capture human souls appears in the historical record from biblical times Explains how the phenomenon of racism is a by-product of their genetic tampering In 1997 Nigel Kerner first introduced the notion of aliens known as Greys coming to Earth, explaining that Greys are sophisticated biological robots created by an extraterrestrial civilization they have long since outlived. In this new book Kerner reveals that the Greys are seeking to master death by obtaining something humans possess that they do not: souls. Through the manipulation of human DNA, these aliens hope to create their own souls and, thereby, escape the entropic grip of the material universe in favor of the timeless realm of spirit. Kerner explains that genetic manipulation by the Greys has occurred since biblical times and has led to numerous negative qualities that plague humanity, such as violence, greed, and maliciousness. Racism, he contends, was developed by the aliens to prevent their genetic experiments from being compromised by breeding with others outside their influence. Examining historical records, Kerner shows that Jesus, who represented an uncorrupted genetic line, warned his disciples about the threat posed by these alien interlopers, while Hitler, a pure product of this alien intelligence, waged genocide in an attempt to rid Earth of all those untouched by this genetic tampering. Despite the powerful grip the Greys have on humanity, Kerner says that all hope is not lost. Greys exist wholly in the material world, so if we follow the spiritual laws of reincarnation and karma, aiming for enlightenment and rising above the material--a state the Greys are unable to reach--we can free ourselves from their grasp.

"All in all I can't recommend this book highly enough to the serious minded reader. Scientist or philosopher, if you can hitch up your prejudices for a moment and I for one know how difficult this is, and give this a go, you'll find this book a very interesting read at the very least and one that might inspire you to take these ideas further. It provides not just the most terrifying warning of our predicament as a species, but it also gives us a deeply realistic look at the marvelous alternative that waits those who heed this warning. It's life-transforming stuff." (Ray Palmer, reviewer, Feb 2010)"Whether you believe Grey aliens exist or not, or don't really care, you'd better sit up and take notice of what Nigel Kerner has to say in his astonishing thesis. A journalist, screenwriter and author (*The Song of the Greys*), Kerner has a keen intellect and well-honed research skills. In 1997, he set his attention on the Grey aliens phenomenon, interviewing eyewitnesses and abductees and making contact with individuals, many in military or intelligence fields who cannot safely speak out. . . . This longstanding Grey presence could be the ultimate conspiracy." (Nexus New Times, Vol. 17, No. 4, June-July 2010)"More than twenty years ago, reveals Kerner, his teenage son asked him if UFOs were real. In an attempt to convince his son that it was all a load of nonsense, he began to investigate the subject, but instead found himself adopting the opposite view. . . . While I certainly do not agree with all of Kerner's conclusions, I found his book a delight to read. Kerner has written a stimulating intellectual adventure with a powerful spiritual message for humankind." (Louis Proud, *New Dawn*, No. 121, Jul/Aug 2010)Nigel Kerner's shocking new book totally redefines the nature of the alien presence on our planet. In a detailed study that is certain to send shockwaves throughout the world of UFO research, Kerner offers a terrifying theory to explain the presence of the so-called extraterrestrial Greys on our world. Far from being the benevolent visitors that many abductees believe them to be, in reality aliens are cold and clinical creatures whose stark and terrible task is to reap and manipulate our very life force--the human soul--for purposes both nefarious and ominous. A book that should, and must, be read.
