LalaFUN! Great additive for travel healthcare workers esp. Histologist. Not your typical travel nursing experience.
Love the photographs.

A traveling healthcare professional-Histologist! ..., both as a substitute medical professional around the U.S and during
my leisure journey as a travel enthusiast in the different cities and places of London, Paris, France, Sweden, Dubai,
and also different countries of Africa. This book is written in 1st person narrative, as it features my own experiences as
a traveler and medical professional. The book have some selected photographs that showcase my skills as a passionate
photographer.
