UsefulBy sumimomoIt is very useful.Very cheap because previous owner wrote a lot, but I can read her writing also.That is nice0 of 0 people found the following review helpful. good reference, missing good imagesBy hewGood review text but very few actual slide images, which would have been helpful.

This concise comparative histology for veterinary students reviewing for their specialty board exams - or for a practitioner looking for an excellent quick reference - boasts 39 chapters covering normal histology of the domestic animals and commonly seen exotics. Nearly 100 full color drawings clearly and accurately present the normal morphology and organ differentiation of tissues. With more than 100 multiple choice questions to aid understanding,

the book is supported by an integrated website containing over 250 full color tissue specimens. Published by Teton New Media in the USA and distributed by CRC Press outside of North America.

About the Author Jo Ann Eurell, DVM, MS, PhD is the Associate Professor of Morphology at the University of Illinois.
