Patrick Leonardi : Histology Study Guide: Key Review Questions and Answers before purchasing it in order to gauge whether or not it would be worth my time, and all praised Histology Study Guide: Key Review Questions and Answers:

2 of 5 people found the following review helpful. Multi-choice only By jacknz If you just want 528 multi-choice (or true-false) questions which cover a basic course to try your hand at, this might be the booklet for you. The answers are there too - without any comment as to why they are right, or how the alternatives are wrong. The questions are printed in black type on red paper. I found this distracting and harder to read than black and white. If your test is likely to contain paragraph, short essay, or 'explain why..' questions, this guide would be of little help. 14 of 19 people found the following review helpful. Excellent study guide for histology By A Customer I found this book to an excellent resource for test preparation. The questions were on target with what is asked on my histology exams. I like the questions because they help you to know what to expect on exams and gives you insight on what is important. I think

this book would be excellent for anyone taking a course in histology in medical school or any other health care majors.

This test preparation study guide is the best in the industry. It is designed for students of medicine, osteopathy, chiropractic, nursing, podiatry, optometry and allied health sciences. Topics include the following: The Cell Cytoplasm, Cell Organelles, Mitosis Meiosis, Epithelial Tissue, Connective Tissue, Nerve Tissue, Muscle Tissue the Circulatory System, Blood Cells Hematopoiesis, Lymphoid Organs, Digestive System, Urinary System.

About the Author Dr. Patrick Leonardi has written over 60 study guides since 1995. His study guides have helped thousands of students achieve better grades in less time and effort. The author has a talent for focusing on the similar key questions that are asked on exams.
