David N. Shier Dr., Jackie L. Butler, Ricki Lewis Dr. : Hole's Essentials of AP SE (NASTA Reinforced Binding High School) (AP HOLE'S ESSENTIALS OF HUMAN ANATOMY PHYSIOLOGY) before purchasing it in order to gage whether or not it would be worth my time, and all praised Hole's Essentials of AP SE (NASTA Reinforced Binding High School) (AP HOLE'S ESSENTIALS OF HUMAN ANATOMY PHYSIOLOGY):

0 of 1 people found the following review helpful. One StarBy Roxane BondarWRONG ITEM

Designed for the one-semester High School anatomy and physiology course, Hole's Essentials of Human Anatomy and Physiology assumes no prior science knowledge and supports core topics with clinical applications, making difficult concepts relevant to students considering pursuing careers in the allied health field. The unparalleled teaching system is highly effective in providing students with a solid understanding of the important concepts in anatomy and physiology

About the AuthorRicki Lewis has built an eclectic career in communicating the excitement of genetics.David Shier has

more than thirty years of experience teaching anatomy and physiology, primarily to premedical, nursing, dental, and allied health students. He has effectively incorporated his extensive teaching experience into another student-friendly revision of Holes Essentials of Human Anatomy and Physiology and Holes Human Anatomy and Physiology. His interest in physiology and teaching began with a job as a research assistant at Harvard Medical School from 1976-1979. He completed his Ph.D. at the University of Michigan in 1984, and served on the faculty of the Medical College of Ohio from 1985-1989. He began teaching at Washtenaw Community College in 1990. David has recent experience in online course delivery, including recording lectures for so-called flipped classrooms. He has also been interested in the relationship between pedagogy and assessment, and the use of tools traditionally associated with assessment (e.g. lab quizzes) as pedagogical tools, often associated with group activities. Jackie Butlers professional background includes work at the University of Texas Health Science Center conducting research about the genetics of bilateral retinoblastoma. She later worked at Houstons M. D. Anderson Hospital investigating remission in leukemia patients. A popular educator for more than thirty years at Grayson College, Jackie has taught microbiology and human anatomy and physiology for health science majors. Her experience and work with students of various educational backgrounds have contributed significantly to another revision of Holes Essentials of Human Anatomy and Physiology and Holes Human Anatomy and Physiology. Jackie Butler received her B.S. and M.S. degrees from Texas AM University, focusing on microbiology, including courses in immunology and epidemiology.
