**G. D. Hsiung, Professor Caroline K. Y. Fong, Professor Marie L. Landry : Hsiung's Diagnostic Virology: As Illustrated by Light and Electron Microscopy, 4th Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hsiung's Diagnostic Virology: As Illustrated by Light and Electron Microscopy, 4th Edition:

This generously illustrated book, the fourth edition of the highly acclaimed *Diagnostic Virology*, is a handbook for the recognition and characterization of virus-induced cellular changes seen by light microscopy, as well as virus morphology seen by electron microscopy. The authors cover all aspects of the subject, from specimen collection and laboratory safety to virus isolation and identification and cell culture. This edition includes a new chapter on the human retroviruses, especially relevant since the onset of the AIDS epidemic, and expands the chapters on the arboviruses and hepatitis viruses.

**About the Author** G. D. Hsiung is Director Emeritus, Virology Reference Laboratory, Department of Veterans Affairs Medical Center, West Haven, Connecticut, and Professor Emeritus of laboratory medicine at the Yale University School of Medicine. Carolyn K.Y. Fong is Section Chief, General Diagnostic Virology, Virology Reference Laboratory, Department of Veterans Affairs Medical Center, West Haven, Connecticut, and Research Scientist of Laboratory Medicine at the Yale University School of Medicine. Marie L. Landry is Director of the Clinical Virology Laboratory, Yale New Haven Hospital, Director of the Virology Reference Laboratory, Department of Veterans Affairs Medical Center, and Associate Professor of Laboratory Medicine and Medicine (Infectious Diseases) at the Yale University School of Medicine.
