**Marianne Neighbors, Ruth Tannehill-Jones : Human Diseases** before purchasing it in order to gage whether or not it would be worth my time, and all praised Human Diseases:

0 of 0 people found the following review helpful. Human Diseases By Britch Howard My purchase was a very good one. I received Human Diseases in great sharp and it was new and the price was good, and I'll buy from again. 0 of 0 people found the following review helpful. A super super basic book... By A. Blandford I guess this book would be a good introductory one for a level 99 class, but I thought the text was extremely rudimentary, and it didn't explain the subjects adequately in my opinion. I am a massage therapist, and my pathology book for massage was better at explaining the topics than this text was. Massage is a certificate level course at most schools, not degree level studies... As such, I definitely would not recommend buying this text for a class. 1 of 1 people found the following review helpful. Great book on pathophys and human diseases. By Reviewer S.N. Great book for someone wanting to learn more about human diseases. Pathophysiology is easy to follow. Not confusing.

Now in its third edition, this best selling full-color text is better than ever! Organized by body systems, this essential pathophysiology text is written specifically for allied health learners and as a reference for allied health professionals. This book is also ideal as a resource on basic diseases for anyone within the medical arena or lay community. It is designed to make difficult pathophysiology concepts easier to understand by using consistent organization, and includes pronunciations, boxed features, and full-color illustrations and photos. Chapters progress through a basic review of anatomy and physiology before introducing the most common diseases. Common diseases and disorders are presented consistently through description, etiology, symptoms, diagnosis, treatment and prevention headings.

About the AuthorDr. Marianne Neighbors is Professor Emeritus at the University of Arkansas, Eleanor Mann School of Nursing in Fayetteville.Ruth Tannehill-Jones retired after 28 years in staff nursing, nursing education, and hospital administration. She served most recently as Vice President, Patient Care Services for Mercy Health System, NWA, St. Mary's Hospital.
