David Sinclair, Peter Dangerfield : Human Growth after Birth (Oxford Medical Publications)(6th edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Human Growth after Birth (Oxford Medical Publications)(6th edition):

The new edition covers recent concepts in cell growth inhibitors. This book also contains the latest information on genes and the human genome. The sections on the growth of the CNS and on reproduction and infertility have been revised in line with current thinking. The references have been fully updated and boxed further reading has been added. Key points are highlighted throughout, and there are a number of new illustrations.

About the Author David Sinclair is at University of Aberdeen. Peter Dangerfield is at University of Liverpool Medical School.
