**Marlene Hurst : Hurst Reviews Pathophysiology Review** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hurst Reviews Pathophysiology Review:

0 of 0 people found the following review helpful. Awesome review made super simple!!!By cemLove this text!!!! I used Hurst reviews to get my LPN license as I wasn't feeling confident after finishing my first year (2 out of 4 nursing instructors were new and learning themselves and was was sick almost all of my final quarter stupid asthma)10 of 10 people found the following review helpful. Not for KindleBy Eric ErnestoI dont own the hardcopy but i got this for my recently bought Kindle and the version for the Kindle, SUCKS!!! It was a complete waste of money since I could not even read the tables that appear in a lighter gray shade. I dont see the point in changing the color. The tables that exists in every chapter of the books are almost unreadable and UNBEARABLE. You will need a magnifying glass to be able to read the table because the fonts dont change even if you change the actual font on the kindle. Then, there are several chapters at the end of the book that are only available in the CD, which one could have availed with a hard

copy of the book. From what I could read from the book, the "marlene moments" of the book were good since they help one remember certain important notes. But, I thought the book was too simple and too basic that you could get a better understanding in your medical surgical book. 3 of 3 people found the following review helpful. Awesome! Just like everything from Hurst! By JazzyJI love this book! I purchased it along with the Hurst Nclex review. I took my boards and did great. My only regret is not having this book when I was in nursing school! If I had, a lot more would have been made since. Instead I rushed through right before my nclex. If you are not doing well in school, or not getting what you need from your Med-Surg text, this is a great book to explain what you need to know in simple terms! Then keep it for your boards to review. I also highly recommend the Hurst Nclex book as well!

Ace your Pathophysiology course with the help of nursing review pioneer Marlene Hurst Use Marlene's no cram, pass with what you already know system to slash your study time in half 4 STAR DOODY'S REVIEW! "The presentation is impressive, covering several learning styles and truly making the understanding of pathophysiology fun! This book offers another approach to those struggling with nursing content that will ultimately result in more successful test taking and safer nursing practice."--Doody's Review Service Based on Marlene Hurst's popular nursing seminars that train over 30,000 students annually, this innovative review is loaded with the author's time-tested strategies - all designed to help you excel in your Pathophysiology course exams. Pathophysiology Review is unlike any other resource as it explains how to apply critical thinking and test-taking skills rather than how to re-learn course content. Marlene shows you how to think on your feet in order to succeed on your Pathophysiology exams. Features: A complete Pathophysiology course toolkit - from the world's most sought after speaker on nursing exam preparation Skill-building questions, answers, and explanations at the end of each chapter Concise, easy-to-remember strategies that cut study time in half Eye-catching full-color format Marlene Moments - Marlene's humorous anecdotes of common student mistakes that offer a light-hearted look at how new nurses learn to succeed What the NCLEX Lady Thinks - tips that reveal the rationale behind various NCLEX pathophysiology questions and how to adjust your strategy accordingly Companion CD-ROM with 3 additional chapters, more questions, plus downloadable MP3 audio tips from Marlene Hurst's award winning seminars

About the Author Marlene Hurst is the go-to authority nursing schools rely on to help their students pass the NCLEX examination. She is a featured speaker at nursing conventions and hundreds of nursing schools across the country and is considered one of the most dynamic NCLEX prep speakers in the business. Hurst is a Registered Nurse and a recipient of a Masters of Science in Nursing degree from the Mississippi University for Women. She is also a certified Adult and Family Nurse Practitioner, a certified Critical Care Nurse, and an Advance Life Support Instructor.
