From Brand: CRC Press : Immunotherapy of Infections (Infectious Disease and Therapy) before purchasing it in order to gage whether or not it would be worth my time, and all praised Immunotherapy of Infections (Infectious Disease and Therapy):

Based on the International Symposium on Immunotherapy of Infections held recently at the Robert Koch Institute, Berlin, Germany, this work discusses cytokines as well as synthetic and natural immunomodulators and their applications in the immunotherapy of bacterial, viral, parasitic and fungal infections. The contributors describe innovative treatment concepts that act as adjuncts to established therapies for the control of both existing and newly emerging infectious diseases.

provides a detailed overview of the approaches which are currently being taken towards the development of immunostimulants a very useful companion for the research scientist or clinical immunologist a helpful addition to the researcher's library. -Inflammation Research
