Neil R. Borley, Bryan F. Warren : Instant Pathology before purchasing it in order to gage whether or not it would be worth my time, and all praised Instant Pathology:

0 of 0 people found the following review helpful. Five StarsBy Customerall you really need for exams revision

Indispensable dip-in revision aid Instant Pathology is the latest addition to the Instant series of basic science revision aids. It presents the fundamental pathological information needed for clinical practice in an easily accessible dip-in

format. Each topic is concisely displayed in a double-page spread and is broken into two sections. The first covers general pathology and processes; the second is split into organ-specific pathology. Ideal for junior doctors and MRCP / MRCS candidates medical students on clinical attachments nurses and other allied health professionals

"If you are looking for a book that covers pathology in an easy to understand way, then this is the book for you. I would highly recommend this book to medical students and junior doctors alike. A real gem." Medical Student, Manchester University "Short bursts of text and lots of bullet points make absorbing the information child's play." SHO, University Hospital Birmingham "Excellent format for quick assimilation of knowledge." SHO, West Middlesex University Hospital "The definitions and epidemiological facts are clear and concisely written." Clinical Lecturer in Histopathology, Bristol "Instant Pathology is a really simple book that gives you the basic information you need for last minute revision...It is easy to read with short sections on each disease. It has a clear layout making learning quick and easy" Medical Student, Oxford University A quick reference for students Written in a student-friendly way, this book will be most useful to senior medical students who wish to review pathology.
