Kenneth Murphy, Casey Weaver : Janeway's Immunobiology before purchasing it in order to gage whether or not it would be worth my time, and all praised Janeway's Immunobiology:

0 of 0 people found the following review helpful. Five StarsBy Mike t.Phenomenal book .0 of 0 people found the following review helpful. Five StarsBy SopnochoraLoved it...1 of 1 people found the following review helpful. Five StarsBy CustomerGreat book...good figs

Janeways Immunobiology is a textbook for students studying immunology at the undergraduate, graduate, and medical school levels. As an introductory text, students will appreciate the books clear writing and informative illustrations, while advanced students and working immunologists will value its comprehensive scope and depth. Janeways Immunobiology presents immunology from a consistent point of view throughoutthat of the hosts interaction with an environment full of microbes and pathogens. The Ninth Edition has been thoroughly revised bringing the content up-

to-date with significant developments in the field, especially on the topic of innate immunity, and improving the presentation of topics across chapters for better continuity.
