It's a dense read but very comprehensive and informative, I literally bring it with me everywhere and read a little here and there when I get the chance 0 of 0 people found the following review helpful. but painful to read By Customer Very in depth, but painful to read. 2 of 2 people found the following review helpful. Excellent for the true student of human movement! By TT33 If you really want and in-depth understanding of movement of all the joints, this is the book for you. If you are a book nerd who wants to learn how to APPLY that knowledge in the clinic, training room or gym

facility, study this book. It has helped me tremendously.
