Very helpful. By tabitha Bought for Anatomy class and very happy I did. It is very detailed and the photos and colors are vivid and labeled well. It is an excellent study tool. I 3-hole-punched mine so I could put it in a binder. That was very helpful to me. I would recommend this for anyone studying Anatomy, or even Physiology, especially for the price. 3 of 3 people found the following review helpful. three and a half stars. By Sophie WI hoped this chart would clearly show the lymph nodes and pathways to assist me doing MLD on my husband's leg. While it does show the nodes and pathways, the nodes are not easy to see, their color is light and they are small. Otherwise the chart is

helpful. It is laminated and seems sturdy
