Brent G. Boving, Richard J. Blandau, N.L. First, J.M. Bedford, Allen H. Gates, Philip J. Dziuk, W.K. Whitten, D.G. Whittingham J.D. Briggers, E.S.E. Hafez, Zeev Dickmann, D.R.S. Kirby : Mammalian Embryology - METHODS [Edited by Joe Daniel,Jr.] before purchasing it in order to gage whether or not it would be worth my time, and all praised Mammalian Embryology -METHODS [Edited by Joe Daniel,Jr.]:

The methods in this book are presented so as to be useful to both students and experienced investigators in the branches of zoology Medicine, veterinary medicine, and animal science that are concerned with mammalian development. The book is designed so that the chapters are related according to the developmental sequence.
