**Stuart Gordon : Management of Chronic Viral Hepatitis** before purchasing it in order to gage whether or not it would be worth my time, and all praised Management of Chronic Viral Hepatitis:

Hepatitis, the leading indication for liver transplantation, is a straight-forward disease when it comes to diagnosis: it is a disease of pathology and is diagnosed by liver biopsy, with the result being either positive or negative. There is only one effective treatment: interferons. Nonetheless, new interferons are appearing on the market and Drs Foster and Goldin examine the use of each of these in the management of chronically infected patients. The authors have written

a succinct, highly illustrated text for all those interested in the management of viral hepatitis.

'An excellent and concise book, which provides easy access to current information, which is generally only accessible in larger textbooks.' - Microbiology Today
