**Elaine N. Marieb, Katja N. Hoehn : MasteringAP with Pearson eText -- Standalone Access Card -- for Human Anatomy Physiology (9th Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised MasteringAP with Pearson eText -- Standalone Access Card -- for Human Anatomy Physiology (9th Edition):

5 of 5 people found the following review helpful. Great product, but cheaper on their website! By GracieI definitely recommend buying this if you need it from , because they are very trust worthy and it wasn't a used code which I was a

huge risk to take! But later I found out it was way cheaper on their website.... well that's how you learn I guess. 3 of 3 people found the following review helpful. I did not realize this also came with the book ...By carla goodrich I did not realize this also came with the book I order. so I spent money on two and only need one 0 of 0 people found the following review helpful. Smart buy for any student who does not want to ...By cdc8161 Smart buy for any student who does not want to carry around a lot of heavy book. I have online access to the book, the lab manual, and everything I need for my class. Very happy with this eText!

**ALERT:** Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab Mastering products. -- Used by over 1.5 million science students, the Mastering platform is the most effective and widely used online tutorial, homework, and assessment system for the sciences. The eText pages look exactly like the printed book, and include powerful interactive and customization functions. This is the product access code card for MasteringAP with Pearson eText and does not include the actual bound book. With the Ninth Edition of the best-selling Human Anatomy Physiology, trusted authors Elaine N. Marieb and Katja Hoehn have produced the most accessible, comprehensive, up-to-date and visually stunning anatomy physiology textbook on the market. Marieb draws on her career as an AP professor and her experience completing her nursing education; Hoehn relies on her medical education and award-winning classroom instruction together, they explain anatomy physiology concepts and processes in a meaningful and memorable way. In the most extensive revision to date the Ninth Edition presents information in smaller and more digestible bites, making it easier to read and navigate. Additionally, the Ninth Edition seamlessly integrates the book with accompanying technology to create a complete learning system. Plus: All text and art features are now assignable in MasteringAP, providing additional opportunities to study. Twelve new Focus Figures help to build further upon the outstanding success of the previous editions art program, and to aid in teaching additional tough topics. Twenty Focus Figures will be assignable through Interactive Tutorials in MasteringAP. 5-10 pieces of art from each chapter are now assignable as Art-Based Questions and/or Ranking/Sorting questions in MasteringAP to further assist students learning and remembering the names of anatomical structures and the understanding of physiological processes Clinical coverage has been increased throughout the book, as well. Every Homeostatic Imbalance section in the narrative is now assignable as Critical Thinking Questions in MasteringAP. Chapters now conclude with an At the Clinic section, featuring 14 brand new Case Studies all reviewed by an emergency room surgeon for accuracy and plausibility. Further practice with additional Case Studies, including new teaching notes, now available in MasteringAP, as well. The package contains: Student Access Kit for MasteringAP with Pearson eText

**About the Author** For Elaine N. Marieb, taking the student's perspective into account has always been an integral part of her teaching style. Dr. Marieb began her teaching career at Springfield College, where she taught anatomy and physiology to physical education majors. She then joined the faculty of the Biological Science Division of Holyoke Community College in 1969 after receiving her Ph.D. in zoology from the University of Massachusetts at Amherst. While teaching at Holyoke Community College, where many of her students were pursuing nursing degrees, she developed a desire to better understand the relationship between the scientific study of the human body and the clinical aspects of the nursing practice. To that end, while continuing to teach full time, Dr. Marieb pursued her nursing education, which culminated in a Master of Science degree with a clinical specialization in gerontology from the University of Massachusetts. It is this experience, along with stories from the field-including those of former students, now in health careers-that has informed the development of the unique perspective and accessibility for which her texts and laboratory manuals are known. In her ongoing commitment to students and her realization of the challenges they face, Dr. Marieb has given generously to provide opportunities for students to further their education. She contributes to the New Directions, New Careers Program at Holyoke Community College by providing several full-tuition scholarships each year for women returning to college after a hiatus or who are attending college for the first time and would otherwise be unable to continue with their studies without financial support. She funds the E. N. Marieb Science Research Awards at Mount Holyoke College, which promotes research by undergraduate science majors, and generously contributed to the University of Massachusetts at Amherst where she provided funding for reconstruction and instrumentation of a cutting-edge cytology research laboratory that bears her name. In 1994, Dr. Marieb received the Benefactor Award from the National Council for Resource Development, American Association of Community Colleges, which recognizes her ongoing sponsorship of student scholarships, faculty teaching awards, and other academic contributions to Holyoke Community College. In May 2000, the science building at Holyoke Community College was named in her honor. Additionally, while actively engaged as an author, Dr. Marieb serves as a consultant for the Benjamin Cummings "InterActive Physiology" CD-ROM series, and is an active member of the Human Anatomy and Physiology Society (HAPS). "Anatomy Physiology," Second Edition is the latest expression of

her commitment to student needs in their pursuit of the study of AP.
