Deepa Patil Assistant Professor Cleveland Clinic Lerner College of Medicine, Deborah Chute Assistant Professor Cleveland Clinic Lerner College of Medicine, Richard Prayson Professor Cleveland Clinic Lerner College of Medicine : McGraw-Hill Specialty Board Review Anatomic Pathology (Specialty Board Reviews) before purchasing it in order to gage whether or not it would be worth my time, and all praised McGraw-Hill Specialty Board Review Anatomic Pathology (Specialty Board Reviews):

1 of 1 people found the following review helpful. Best question book for APBy AnonI used this to study for both AP

and sub specialty boards, and am so glad I did. It was way more helpful than Lefkovitch. The explanations of the answers are great, and very useful for studying. I have the Kindle version, and had issues trying to "click" on the question number (which is actually a link, and takes you to the back of the chapter, to the location of the answer). The link numbers are small, and too close to the left of the screen, and my tablet kept thinking I was trying to turn the page. I had better success when I made the text larger, and only clicked on links that were on the upper half of the page. Kindle issues aside, this book is phenomenal. 1 of 1 people found the following review helpful. some are terrible. Many of the questions are "all are... except" and don't give good explanations. Lots and lots of minutia. At first I didn't mind this book until I realized how much better Lefkowitz is. 0 of 0 people found the following review helpful. A great question book for board prep. By Ryan This is an excellent resource for those preparing for the AP boards. The questions are difficult but not impossible, and the explanations are a nice length without being overly detailed.

More than 1,500 QA and 450 full-color illustrations provide the ultimate review for the Anatomic Pathology Board Examination McGraw-Hill Education Specialty Board Review: Anatomic Pathology is the perfect way for residents to prepare for the Anatomic Pathology Board Examination and for practicing pathologists to prepare for recertification.
