Bari M. Logan MA FMA Hon MBIE MAMAA, Ralph T. Hutchings : McMinn's Color Atlas of Foot and Ankle Anatomy, 4e before purchasing it in order to gage whether or not it would be worth my time, and all praised McMinn's Color Atlas of Foot and Ankle Anatomy, 4e:

0 of 0 people found the following review helpful. has very nice pictures.By CustomerUse this book in my lower extremity anatomy class for podiatry school, has very nice pictures.1 of 1 people found the following review helpful. Three StarsBy FocusladyI found the pictures a little difficult to follow.1 of 1 people found the following review helpful. Exactly what I neededBy DABGreat anatomy text for surgeons. Came quickly and as ordered. I Highly recommend it to any resident or young surgeon.

McMinn's Color Atlas of Foot and Ankle Anatomy, by Bari M. Logan and Ralph T. Hutchings, uses phenomenal images of dissections, osteology, and radiographic and surface anatomy to provide you with a perfect grasp of all the lower limb structures you are likely to encounter in practice or in the anatomy lab. Youll have an unmatched view of

muscles, nerves, skeletal structures, blood supply, and more, plus new, expanded coverage of regional anesthesia injection sites and lymphatic drainage. Unlike the images found in most other references, all of these illustrations are shown at life size to ensure optimal visual comprehension. It's an ideal resource for clinical reference as well as anatomy lab and exam preparation! Easily correlate anatomy with clinical practice through 200 high-quality illustrations, many life-sized, including dissection photographs, skeletal illustrations, surface anatomy photos, and radiologic images. Reinforce your understanding of each dissection with notes and commentaries, and interpret more complex images with the aid of explanatory artwork. Efficiently review a wealth of practical, high-yield information with appendices on skin, arteries, muscles, and nerves. Administer nerve blocks accurately and effectively with the aid of a new chapter on regional anesthesia. Deepen your understanding of lymphatic drainage with a new Correlate anatomy into practice with life-size dissection photographs of the foot, ankle, and lower limb

"Clearly this remains a very useful book for the podiatric profession, although it appears to be more widely used in the U.K. than the U.S. It has a place in both the preclinical and the clinical setting, for students, residents, and practitioners alike. However, the book also will appeal to an even wider audience, both medical and paramedical." - Martin Yorath, DPM (Rosalind Franklin University of Medicine and Science) 4 star Doody rating! About the Author Bari Logan and Ralph Hutchings have contributed to some of the most successful anatomy titles on the Mosby-Wolfe list, namely: McMinn, Hutchings, Logan: Color Atlas of Head and Neck Anatomy 2/e Abrahams, Hutchings, Marks: McMinn's Color Atlas of Human Anatomy 4/e Backhouse, Hutchings: Clinical Surface Anatomy 2/e McMinn, Gaddum-Rosse, Hutchings, Logan: McMinn's Functional and Clinical Anatomy McMinn, Hutchings, Logan: The Human Skeleton In addition, they have been involved in other anatomy projects with Butterworth and Manson Publishing: Ellis, Logan, Dixon: Human Cross Sectional Anatomy, 1994, Butterworth McMinn, Hutchings, Logan: Concise Handbook of Human Anatomy, 1997, Manson Publishing Bari Logan is an internationally renowned prosector, based at Cambridge, who is regularly invited to talk worldwide on the preparation of anatomic specimens (!). Ralph Hutchings was formerly Chief Photographer at the Royal College of Surgeons.
