**Eugene Nester : Microbiology: A Human Perspective by Nester, Eugene Published by McGraw-Hill Science/Engineering/Math 6th (sixth) edition (2008) Hardcover** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Microbiology: A Human Perspective by Nester, Eugene Published by McGraw-Hill Science/Engineering/Math 6th (sixth) edition (2008) Hardcover:

6 of 6 people found the following review helpful. Decent TextbookBy S. LokChapters are sometimes lengthy but overall a good textbook to use for microbiology. Easy read and very easy to understand.0 of 0 people found the following review helpful. I literally purchased this for a college courseBy Lisa M. GrayI literally purchased this for a college course. It was not a leisure book.0 of 0 people found the following review helpful. Five StarsBy CustomerThe book was very helpful. I saved a lot of money buying a used book.

Appropriate for the non-major/allied health student, this authoritative text carefully explains the fundamentals, providing a general overview of the principles followed by more detailed explanations. With its easy-to-read writing style, Microbiology: A Human Perspective offers modern coverage on such topics as genomics, biofilms, and quorum

sensing. A body systems approach is used in the coverage of diseases.
