Marjorie Kelly Cowan Professor, Jennifer Bunn : Microbiology Fundamentals: A Clinical Approach - Standalone book before purchasing it in order to gauge whether or not it would be worth my time, and all praised Microbiology Fundamentals: A Clinical Approach - Standalone book:

0 of 0 people found the following review helpful. Good book By Melissa Marquez I rented this book and the material of the book is great. Except that the book that I received was super old. I am about to return it this week, which is suppose to be free (I hope they did not lie), and I hope they don't think I was the one who made it old and taped it up, since it was already like that. I guess that is my only concern, whether, it will arrive safely, since it is very old. I took pictures just in case. Oh another thing, it says it comes with access to certain things, but I never figured out how to get access to those resources. But overall, it is a good book. 0 of 0 people found the following review helpful. Five Stars By Don Pablo I learned alot from this book, expect ALOT OF EQUATIONS 0 of 0 people found the following review helpful. Four Stars By Lawrence G. Smith granddaughter loves it.

About the Author Kelly Cowan just celebrated her 20th anniversary at Miami University Middletown, an open admissions campus in Ohio. She received her Ph.D. at the University of Louisville, and later worked at the University of Maryland and the University of Groningen in the Netherlands. She specializes in teaching microbiology to nonmajors, and especially to pre-nursing and allied health students. She herself fell in love with microbiology while pursuing an undergraduate degree in dental hygiene. She has made it her personal mission to hear nurses and dental hygienists she encounters in everyday situations exclaim, I loved my microbiology class! Jennifer Bunn, RN, is a registered nurse, having spent most of her career in rural medicine, where she has had the opportunity to interact with patients of all ages. Her experience includes emergency medicine and critical care, pediatrics, acute care, long-term care, and labor and delivery. Currently, Jennifer works on an acute care unit. Over the span of her career, she has enjoyed mentoring and precepting LPN and RN students. Jennifer writes medical content for websites, apps, and blogs.
