Scientific Publishing : Muscular System Male chart: Wall Chart before purchasing it in order to gauge whether or not it would be worth my time, and all praised Muscular System Male chart: Wall Chart:

0 of 0 people found the following review helpful. Good product, ruined by short-sighted packaging By J. C. Diagrams are clear, and labels are readable. Laminated well, with two grommets in the top two corners for hanging. Stars lost for problems as a result of the way it is packaged. It comes tightly rolled in a cardboard canister, but not rolled top to bottom, but sideways. This results in a very strong tendency to curl inward from the sides, and hanging it from the grommets, as I intended to do, is impossible, since the plastic lamination keeps trying to return to its rolled up shape. I pressed it straight with books for days, to no effect. I ended up rolling it up the reverse way to correct the curve, which worked after a couple days, but the process of rolling it that way dented and creased the poster in a few places, so now my brand new poster looks 5 years old before I even get it on the wall. If you can tack all four corners to the wall, you may not have such problems, but if you mean to hang it from a wall hanger or two by the grommets, good luck. The ironic thing is that the circular canister that the poster was rolled up inside was then placed in a large rectangular box

that was practically large enough for the wall chart to lay flat in anyway. Fix the very unhelpful way this item is packaged and shipped, and it's a four star chart.2 of 2 people found the following review helpful. love itBy Anuamazing product, it is very clear , very bright and easy to read and just the perfect size. thank you.0 of 0 people found the following review helpful. Excellent quality. Nice thick poster paperBy RAHExcellent quality. Nice thick poster paper. Excellent print quality. Amazing price for the quality of this product.

The Muscular System chart graphically portrays front and rear views of the male musculature. Other images include muscles of the abdominal wall, the outer muscles of the back and a plantar view of the foot. Heavy cover stock with protective varnish for durability.
