**Duane E. Ph.D. Haines : Neuroanatomy: An Atlas of Structures, Sections, and Systems (Fourth Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Neuroanatomy: An Atlas of Structures, Sections, and Systems (Fourth Edition):

0 of 0 people found the following review helpful. It's a bookBy Laurence H. ChurchillIt's a good book to have and use if you need to see, understand Neuroanatomy...! (why do I need to have a minimum nubmer of words to leave a review, some reviews only take so many words?!)

From book cover: A best-selling text illustrating and describing the pathways and structures of the human brain. It guides the reader through the brain with color pathway drawings the feature pathway organization, pathway neurotransmitters, clinical correlations for each pathway, and a review of the blood supply. It contains full page photographs matched with detailed labels and matching drawings. Images are taken using Magnetic Resonance Angiography.
